Priority

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on 04/07/2004. It is noted, however, that applicant has not filed a certified copy of the JP 2004-113403 application as required by 35 U.S.C. 119(b).

REASONS FOR ALLOWANCE

2. Claims 4-23 are allowed.

3. The following is an examiner's statement of reasons for allowance:

(a) As to independent claims 4 and 14, note is made of the limitation "a substrate-side low-impedance electrode positioned between the substrate-side drive electrode and the substrate-side detection electrode arranged to cut off the coupling between the substrate-side drive electrode and the substrate-side detection electrode" (claim 4) or "a substrate-side low-impedance electrode enclosing one of the substrate-side drive electrode or the substrate-side detection electrode arranged to cut off the coupling between the substrate-side drive electrode and the substrate-side detection electrode" (claim 14), in combination with the rest of the respective limitations in claims 4 and 14, respectively.

(b) The closest reference Sugitani (US Patent 6,134,962 henceforth "Sugitani") discloses an "angular velocity detecting apparatus of a vibration type" including a vibrator (10), vibrating bars (12, 13) for excitation in the Y-axis, bars (14, 15) for detection in the Y-axis, electrodes (21-24) for bar (13), electrodes (31-34) for bar (12),

electrodes (25-28) for bar (15), electrodes (35-38) for bar (14) and an alternative multilayer substrate metallized substrate (100), (figures 1, 2A, 2B, 3; column 3, line 58 - column 4, line 9; column 4, line 20 - column 5, line 67).

However, Sugitani does not disclose or provide motivation for the above-mentioned configuration of the electrodes as specifically defined in claims 4 and 14, respectively.

(c) Therefore, the prior art does not disclose or provide motivation to combine the above-mentioned limitation in combination with the rest of the limitations in the claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon, cited in the attached 892 form, is considered pertinent to applicant's disclosure.
